## Solar Brother fills your luggage with solar innovations for an eco-responsible holiday!

### Enjoy the summer holidays while respecting the environment

Leader in outdoor innovations, the French start-up Solar Brother supports all your outdoor outings this summer! With their complete range (lighter, mobile charger, oven and solar food dryer) of solar-powered, ecological and fun products, outings with family or friends will be even more enjoyable and convivial. Made in France with eco-responsible materials, all Solar Brother products are easy to transport and can be used outdoors in complete safety. Something to share unforgettable “solar” moments all summer long!

### OMY®, an ecological solar dryer

Latest novelty for this summer, OMY is an eco-designed and Made in France dryer that allows you to dehydrate fruits, vegetables, flowers or even seaweed to obtain optimal conservation throughout the year.

Ultra economical and simple to build, OMY can be used at all latitudes and in all seasons. With a practical, modular and compact design, this dryer can store up to 7 kg of food...with free energy.

OMY® is available for €469 (size S) on [the Solar Brother store](#)

Sungood®, an ecological cooker oven that can be transported everywhere

For convivial days by the sea or in the heart of nature, with friends or family, what better solution than to be able to prepare a good meal on site to share good times? Thanks to the Sungood solar cooker, it is possible to cook any type of food on the move (rice, fish, meat, etc.) without any smoke or flame. Totally secure, this portable oven accompanies every outdoor outing (beach, mountain, garden) and guarantees perfect cooking!

Sungood® is available in 5 colors (red, yellow, blue) at a price of €79.95 on [the Solar store Brother](#)

Sunlab®, the educational solar cooker for children

Indispensable for this summer's holidays, Sunlab is a portable solar cooker allowing the youngest to discover the taste of the sun! Without any smoke or flame, totally secure, this portable oven will accompany every outing to the beach, to the mountains or even to the garden. Sunlab is a solar dinette for children over 6 years old, to learn about solar energy while having fun!

The Sunlab® is available at the price of 25 € on [the shop Solar Brother](#)

Suncase Gear®, a high-performance solar lighter

To make this summer's outdoor escapades easier, Solar Brother has designed Suncase Gear: an ultra-compact solar-powered fire starter that concentrates the sun's rays into a focal point for immediate incandescent ignition. Adapting to all types of fuels (wood, paper, tobacco, incense, etc.), Suncase Gear produces energy that is 100% free and available throughout the planet, in all weathers and for lifetime use!

Suncase Gear® is available in 5 colors (red, green, yellow, white, black) for €12.95 on [the Solar Brother store](#)

## SUNMOOVE®, the portable solar panel!

SUNMOOVE® is a compact, ultralight, waterproof and foldable charger! This ecological innovation available in two versions, 6.5 and 16 Watts, adapts to all outdoor conditions... so you'll never run out of battery again whether you're in the mountains, at the sea or camping.

Sunmoove ® is available on the Solar Brother store at a price of €99.95 for [Sunmoove 6.5 watts](#) and €169.95 for [Sunmoove 16 Watts](#)

Solar Brother has just obtained the ESUS label (Social Utility Solidarity Company) with the mission of spreading the knowledge and use of solar energy

### About Solar Brother:

Created by Gilles Gallo and Gatien Brault in 2016, Solar Brother develops a range of ingenious and "outdoor friendly" objects operating on the basis of concentrated solar energy, captured using a system of parabolic reflecting mirrors: a technology as old as Archimedes and that almost everyone has experienced with a magnifying glass as children. Based on this principle, Solar Brother has designed and distributed 4 innovative products to the general public, including 3 Lépine prize-winners. They are present in nearly 300 points of sale in Europe, with a promising launch in Japan in 2020. Benefiting from the support of the Bank Public Investment, both on innovation and export, Solar Brother now wants to accelerate the development of the brand internationally, particularly in Germany and the United States.

Committed to reducing its environmental impact as much as possible, Solar Brother uses recycled, up-cycled materials and 0-waste packaging and French manufacturing.
